

South Dakota Substance Use Disorder Treatment Services

There may be multiple substance use disorder agencies providing services in your community. To find an agency in your area, please visit one of the websites below.

- SAMHSA Treatment Locator - findtreatment.samhsa.gov/
- DSS - dss.sd.gov/behavioralhealth/agencycounty.aspx

Financial assistance is available, contact a treatment provider in your area for more information.

Substance Use Disorder Treatment Services

The Division of Behavioral Health accredits and contracts with substance use disorder agencies across the state to provide quality services to both adults and youth. Services include screenings and assessments, early interventions, detoxification, outpatient and inpatient treatment services. Financial assistance for services is available.

Early Intervention Services

Early intervention services offer outpatient services to individuals who may have substance use related problems, but are not diagnosed with a substance use disorder.

Outpatient Treatment Services

Outpatient treatment services provide counseling services to individuals diagnosed with substance use disorders. Outpatient services are able to be delivered via telehealth.

Low Intensity Residential Treatment Services

Low intensity residential treatment services include residential, peer-oriented treatment programs for individuals with substance use disorders whose living situation or recovery environment is

incompatible with recovery goals. To prepare the client to live successfully in the community, the program provides substance use disorder counseling along with case management services.

Inpatient Treatment Services

Inpatient treatment services provide residential services with medically monitored intensive treatment for individuals with severe substance use disorders.

Detoxification Treatment Services

Detoxification treatment services are residential services delivered by trained staff who provide 24-hour supervision, observation and support for individuals who are intoxicated or experiencing withdrawal symptoms. The goal is to motivate the individual to seek further treatment services.

Specialized Treatment Services

Specialized treatment services are available for pregnant women, women with dependent children and individuals in need of intensive methamphetamine treatment.

How do
I find
help?

Contact Us
For questions or more information, please contact the Division of Behavioral Health online at dss.sd.gov/behavioralhealth/, by phone at 1.855.878.6057 or by emailing DSSBH@state.sd.us.
